

Core Switch Supervisor Modules

Scope of Work

The United States Bankruptcy Court in the Central District of California would like to procure three (3) Cisco Catalyst 9400 Supervisor Engine-1XL modules from an authorized Cisco Reseller. These Supervisor modules are intended to be used as redundant supervisor engines and will be installed onto three (3) separate, existing Bankruptcy Core switches. Each module will be configured as a redundant supervisor in a high available mode. The existing Bankruptcy Core switches are Cisco model, Catalyst 9400, 7 slot series cores located at the sites listed below. Please see the attached Bill of Material for the manufacturer's part numbers for these modules. The vendor with the lowest priced, technically acceptable quote will be required to ship one (1) unit to each of the following locations:

1) Woodland Hills, California

United States Bankruptcy Court
Central District of California
21041 Burbank Boulevard
Woodland Hills, CA 91367

Qty: 1

Attention: Jeffrey Leong

2) Riverside, California

United States Bankruptcy Court
Central District of California
3420 Twelfth Street
Riverside, CA 92501
